ABOUT ME

I am a fourth-year Information Technology student with a passion for web development. I am passionate about Front-End development and am currently learning Back-End technologies. My skills include HTML, CSS, JavaScript, ReactJS, and TailwindCSS. I am seeking an internship as a Front-End or Back-End Developer to further develop my abilities and gain real-world experience.

EXPERIENCE

Part Time, Gas Station Attendant March 2023 - February 2024

- Improved patience and stress tolerance in a fast-paced work environment
- Gained experience in problem-solving during real-time customer service situations
- Developed strong teamwork skills through daily coordination with colleagues

The 67th Student Arts and Crafts Competition – English Skit Performance 2017

- Strengthened collaborative abilities through shared planning and team-based activities
- Enhanced spoken English proficiency through engaging storytelling practice and delivery
- Built confidence in theatrical expression and on-stage communication during live performances.

PROJECTS

WeatherApp 2025

A simple weather application built with HTML, CSS, JavaScript, and React. It fetches real-time data from a weather API to display temperature, location, humidity, and wind speed. Users can search by city. The UI is responsive with clean, modern design.

Personal Web Portfolio 2025

Tech Stack: HTML, CSS, JavaScript, ReactJS

Designed and developed a personal portfolio website to showcase my skills, projects, and experiences. The website features a responsive design optimized for both desktop and mobile devices, a smooth user interface using ReactJS, and custom styling with TailwindCSS. This project demonstrates my front-end development capabilities and attention to detail in UI/UX.
